

HOSTING A SUCCESSFUL SAFE SACRED SPACES EVENT

Tony Cloud
Mental Health Coach,
Consultant, Speaker

As the event host, we ask that you provide the following:

- Indoor venue seating for up to 100.
- Audio visual equipment to include a microphone, large screen projection for audience viewing of a supporting PowerPoint presentation. This can be done through a couple of options, #1 USB drive into your device, #2 HDMI cable connection of the keynote speaker's laptop to your equipment. Please be aware that the speaker's laptop is not a MAC, will not interface with old technology, and uses an HDMI port.
- Tables (6 or 8 foot) will be needed for Community Resource Exhibits featuring faith-based and community service providers. Number of tables to be determined.
- Coffee service, water bottles and individually packaged snacks for attendees.
- Commit to making a financial contribution.

Promote Safe Sacred Spaces:

- Identify and invite other Christian churches, faith-based organizations, service providers, and community businesses to attend and contribute to a collaborative effort in your community.
- Post the event to your website, social media accounts, electronic calendar or other public facing platforms.
- Print and display event posters in your facility and community
- Print and broadly distribute postcard invitations to others.
- Share and send the event information and promotional materials to other Christian leaders, faith-based organizations, service providers and business owners in your community.

Tony Cloud Communications will provide the following:

- Commitment to assist you as the host to have a successful event.
- Collaboration with our event coordination team.
- Customized promotional materials for the event with your date, location and event information.
- Informational email template to send to potential community and faith-based service providers.
- Educational self-standing banners.
- Companion guide available to attendees
